Experience

- **Bybit** **Kuala Lumpur**
Internship, DevOps Intern *July 2025 – October 2025*
 - Deployed a static website on Kubernetes, gaining hands-on experience with deployment and service configuration.
 - Monitored system resource utilization (CPU, memory, I/O, network traffic) using Prometheus, Grafana, and Monit.
 - Assisted in setting up a CI/CD pipeline in staging using GitLab, Jenkins, and Docker, supporting application deployment on testnet prior to production release.
 - Built and optimized Docker images by experimenting with multi-stage builds and caching strategies, reducing image size and build time.
 - Self-learned and applied concepts in Kubernetes, Docker, GitLab CI/CD, Kafka, and monitoring tools, strengthening knowledge of container orchestration and automation.
- **Global Development Technology Sdn Bhd** **Cyberjaya, Selangor**
Internship, Service Engineer Intern *July 2024 – October 2024*
 - Performed power cycling, troubleshooting, and replacement of faulty components.
 - Assisted with cabling work, equipment movement, and installation during final inspections.
 - Conducted daily data center patrols, documented problems, and participated in on-call rotations.
- **Oriental Realty** **Subang Jaya, Selangor**
Part-Time, IProperty Assistant *November 2022 – June 2024*
 - Managed property listings, updated advertisements, and handled client communications.
 - Created and managed online property advertisements to improve visibility.
 - Interacted with clients to understand requirements and provide suitable options.
- **Sarawak Energy Berhad** **Sibu, Sarawak**
Internship, IT Assistant *May 2022 – August 2022*
 - Resolved hardware, software, and network issues for employees.
 - Assisted in maintaining network infrastructure and inventory management.
 - Set up laptops, printers, and handled data migration during system upgrades.

Education

Academic Qualifications.....

- **Multimedia University** **Cyberjaya, Selangor**
B.C.S (Hons) Data Science, CGPA: 3.36 *2022–2024*
- **Multimedia University** **Cyberjaya, Selangor**
Diploma in IT , CGPA:3.82 *2020–2022*

Notable Projects.....

- **Realistic Content Aware Color Style Transfer (Final Year Project, Degree)**
 - Developed a system to transfer color styles between images while preserving content.
 - Incorporated user preference input for personalized results.
 - Implemented using *TensorFlow, PyTorch, OpenCV, PIL, Colorthief*.
 - Responsible for full-stack development, model design, and implementation.
- **E-Commerce System (Final Year Project, Diploma)**
 - Built a web-based shopping platform with functionalities for both administrators and users.
 - Designed intuitive user interfaces and managed backend operations.
 - Developed and maintained MySQL database for products, users, and transactions.
 - Implemented using *HTML, CSS, JavaScript, PHP, MySQL*.
- **Website Deployment (Cloud Project)**
 - Deployed a static website using Amazon S3 and EC2.
 - Configured and uploaded content to S3 with proper permissions.
 - Set up EC2 instance, installed web server, and deployed site.
 - Managed access controls and security settings for both deployments.
- **To-Do List Application**
 - Developed a full-stack web application where users can perform CRUD operations on to-do items.
 - Frontend built with *React*, backend with *Node.js + Express*, and database using *PostgreSQL*.
 - Containerized and deployed application using *Docker* and *Kubernetes (k3s + Colima)*.
 - Implemented continuous integration and deployment with *GitLab CI/CD*.

Skills

- **Programming Languages:** Python, R, Java, JavaScript, PHP, C++
- **DevOps Cloud Tools:** Kubernetes, Docker, GitLab, AWS, Prometheus, Grafana
- **Data Science Analytics:** TensorFlow, PyTorch, OpenCV, SQL
- **Productivity Tools:** Microsoft Office (Word, Excel, PowerPoint)
- **Soft Skills:** Problem Solving, Teamwork, Communication (English, Mandarin, Bahasa Melayu)

Certifications

- **AWS Knowledge:Cloud Essentials**
- **AWS Technical Essentials**
- **Fundamentals of Analytics on AWS**
